Bidding: After North and East pass, South could conceivably pre-empt 3♠ or 4♠. If South opens 1♠, West is too good to overcall, and this may lead to 3NT.

Lead: A spade is not clearcut, as it may help declarer.

Play: Declarer should manage: 2♣, 6♦, 2♥ and maybe 1♠.

Bidding: Depending on your agreement with partner, you may play that a double of an overcall if partner has opened 1NT is for penalties. North should double hearts on that basis: excellent trumps - at least 6 combined hearts, and the majority of points. East might try running to 3♣, but South should double that.

Play: After winning ♥K, North should switch to a club. With good defence, declarer will probably lose 3♣, 1♦, 1♥ and 1♠ - down 2.

Play: If North leads a heart, declarer should play low from dummy, as this guarantees a 2nd heart trick. South must now switch to a diamond, so the defence can now make: 1♣, 2♦, 1♥ and probably 2♠ - down 1 doubled in 2♠ is only 100pts non-vulnerable.

Bidding: By whatever route, surely EW will reach 4♠.
Play: After winning ♥A, South should switch to ♠K. The spades divide 3:1, so only 11 tricks are available.

Opening Lead: ♠ 2

Bidding: West has enough to invite game.
Lead: A trump lead should be safe. ♦3 is an alternative. Do not lead a club or a heart. The computer finds the best lead is a diamond.
Play: If you draw trumps in 3 rounds, and then lead a low heart, you can now win ♥A, ♥J, ♥10, cross to ♦A and cash your 2 last hearts, discarding clubs. Ruff a club and you will make 11 tricks, losing only 1♣ and 1♦.

Bidding: South can make a takeover double of 1♠, but EW will probably still settle in 2♠ or perhaps 1NT or 2NT.
Play: Declarer might duck the first trick, as a 2nd club now establishes the suit for declarer. Perhaps South should now shift to ♠A and another spade. Declarer should manage: 4♠, 1♥, 1♦ and at least 2♣.
